where.skin.matters

Pure Dermatology announces a shift in our Aesthetics Department. After much thought, it is clear we will better serve our patients by offering medically-focused Aesthetic Services. This means services that can only be offered under the supervision of a physician. We will no longer offer Cosmetic Facials, Enzyme Treatments, Waxing, Lash/Brow Treatments and Superficial Microdermabrasion effective June 1, 2015. However, Pure Dermatology is delighted to support highly skilled Licensed Aestheticians in our community through thoughtful referrals.

The following services continue to be available: Chemical Peels; Microdermabrasion; Silk Peels; Acne Treatments for the face/back/chest; Acne Surgery/Extractions; DCA for the removal of Sebaceous Hyperplasia; MicroNeedling; Dermaplaning, as an add on to Chemical Peels; and Laser Hair Reduction. Most of these procedures will vary in length from 30-45minutes.

Of course, our staff will also continue to offer complimentary cosmetic treatment and product consultations. It is our intention to ensure that all your Aesthetic needs are met via referral. If for any reason you are unable to make a connection with a referral that meets your expectations, our staff will personally act as a cosmetic concierge to identify your treatment goals and assist you in finding just the right professional. Our primary objective is walking with you on the journey to vibrant and healthy skin.
